Penny Wars!

IAPD Student Council will be sponsoring the Penny Wars again this year! We will be doing this all week, 11/14 through the afternoon of 11/18. All of the money raised will go to the Ogden community center to help with their Thanksgiving preparations. Each department will have a jar at the front desk and will compete against the other departments.

Pennies are "positive points" and what you would put in your department's jar. Silver coins and dollars are "negative points" and will be what you put in other departments jars to try to make them lose.

There will also be a complete list of the rules next to the jars. There will a bucket to place your names in after you donate, and you will be put into a drawing for one of two Little Apple Art gift cards for participating. Last year we raised a lot and we're excited to see how much we can raise again this year!

Jonathan Arnold Lecture - Wed, Nov 16, 4:30pm - Engineering Hall Auditorium

JONATHAN ARNOLD

SCALING UP PASSIVE HOUSE: COMBINING HIGH CONSTRUCTION AND INTEGRATED ENERGY DELIVERY TO CREATE THE MOST EFFECTIVE HIGH PERFORMANCE URBAN HOUSING

November 16 - Engineering Hall - Auditorium - 4:30 p.m.

The world's largest passive house project is underway in Kansas City, using more than 200 ft of energy storage. Funding is changing the way real estate is funded, already engaged with \$100 to build. Affordable housing is going green, while a new generation of developers is pursuing high-performance results. This lecture will explore the working edge of residential real estate development and the expanding opportunities for social impact from the housing to the city scale.

Jonathan Arnold, president and CEO of Arnold Development Group, is responsible for strategy, corporate vision and capital structure. He holds a degree in architecture from Cornell University and a master's degree in real estate development from Columbia University. Over the past 15 years, he has successfully helped design and market more than \$6 billion in commercial real estate, including more than 40 continuing care retirement communities, 2,500 apartment units, and more than two dozen large scale mixed-use urban infill developments.

KCDC Lecture - Wed, Nov 16, 5:30-7:00pm

a public lecture by
MARTIN FELSEN
of URBANLAB

BOWLING

wednesday, november 16th
5:30pm-7:00pm
kansas city design center
1018 baltimore ave
kodesigncenter.org

Bowling explores relationships between architecture and infrastructure through the making of physical "bowls" in the urban landscape to align shared resources with city life.

Wed, Nov 16, 5:30-7:00pm KCDC Lecture

Third Floor Tidbits Weigel Library

Displays -

Look for the Jonathan Arnold display promoting the lecture about his passive house project in Kansas City. He lectures Wednesday, November 16. Numerous books relating to his specialty have been pulled for your convenience.

Also two library student assistants have created "mini" displays of their internship experiences. Both students showcase the firm and their work, MESA Design Group in Dallas and RDG Planning & Design in Omaha, as well as living in those locations.

The Library and Your Research: Graduate Workshop Series

Enhancing Discovery w/ Google Scholar & Google Books Monday, Nov 14 - 1:30 - 2:30 pm - 407 Hale

Google Scholar and Google Books are enormous, free, multi-disciplinary indexes covering vast swathes of the world's published information. This workshop will cover advanced search techniques that will help you find sources you might have missed when searching other databases. You will also learn how to use these tools to answer specific questions, trace citations, and promote your own research.

Time to plan ahead -

Fall Break / Thanksgiving Holiday Hours

Saturday and Sunday, November 19 and 20, CLOSED

Monday, Tuesday, Wednesday, November 21, 22 and 23, OPEN
8 am to 12 noon & 1 pm to 5 pm

Thursday through Sunday, November 24, 25, 26 and 27,
CLOSED

Monday, November 28, REGULAR HOURS begin at 8 am

Enjoy your break and your holiday. Travel safely to and from. Then be

Dean's Student Advisory Council

Applications are now available for students to apply to be a representative for their department for the Dean's Student Advisory Council! The application is open to any student in the College of Architecture, Planning and Design, and applicants should be willing to be a voice for their specific department. The time commitment is a minimum, and it is a great way to become more involved in the college, while voicing your ideas to the entire college and administration. The link to the application can be found on the APDesign website at <http://apdesign.ksu.edu/current-students/student-orgs/dsac/>. Applications close on December 5, 2016.

MOA ARCHITECTURE: SCHOLARSHIP AWARD + SUMMER INTERNSHIP PROGRAM

MOA ARCHITECTURE (MOA) would like to make you aware of a scholarship and learning experience opportunity we hope you can share with your students. We offer an annual merit based private scholarship award + paid summer internship (plus paid travel and living expense reimbursement) to students in accredited architectural programs. Total value to the students is typically in excess of \$12,000.

It is our intent that this Scholarship Award + Internship opportunity rewards and challenges students with practical experience in concert with the individual's educational experience, and further stimulates their passion and interest in a career in architecture. The summer of 2017 will be the 10th year of our program, and it has proven to be a rewarding experience for the students and MOA.

For summer 2017, we offer the Robert L. Outland Women and Minority Scholarship + Internship. Named in honor of our founding principal and an Oklahoma Choctaw Native American, this award was established to recognize and reward entering fifth year, or graduate level women and minority students in an accredited architectural program (who will be returning to school in Fall 2017 following the internship). This Scholarship + Internship is specifically intended for students who demonstrate their passion for architecture, high academic achievement and design ability.

We have chosen to limit opportunity on an every-other year basis (odd numbered years) specifically for those under-represented in the profession - women and minority students through the Robert L. Outland Scholarship. In alternating even numbered years (next opportunity summer 2018) we offer the Kiyoshi Murata Scholarship + Internship, which is open to all students.

Submittals are due in January 2017, so we ask that you share this opportunity for the summer of 2017 with your students during this fall term and invite them to visit our Scholarship + Internship page <http://moaarch.com/scholarship/> where they can learn more about MOA ARCHITECTURE, this opportunity and the application/submission requirements.

To help make communication of the opportunity as easy as possible, you can simply forward this e-mail to your architectural students. I am also including in this e-mail a link to an informational flyer so that you will be able to download and e-mail it to your architecture students or print and post the flyer.
<http://moaarch.com/moa/wp-content/uploads/2016/10/2017-Scholarship-Application-flyer.pdf>
Please contact me if you have any questions or require additional information. We look forward to receiving submittals from your students.
