TOTAL HOURS REQUIRED
FOR GRADUATION
(INCLUDING ENVD PROGRAM)

* A minimum of 15 general elective credits must be taken outside of the College of Architecture, Planning & Design. General electives may be taken in pursuit of a minor. They may be taken any time before or during the Landscape Architecture program and may include K-State approved AP, IB, CLEP and transfer credit. General electives may include K-State-approved extracurricular work as allowed by university regulations; see catalog.k-state.edu/content.php?catoid=13&navoid=1410#cred_for_extr. Students may not count more than 3 total hours of recreation credits toward graduation.

All required courses taught in the landscape architecture and regional & community planning programs that are counted toward the degree must be passed with a grade of C or better.

**Eighth semester: The study abroad, internship, and KCDC options have course requirements that substitute for the 9 professional elective credit requirements. If the internship option is not selected during the eighth semester, a summer internship is required before graduation.

+All students will complete either a master's report or a master's thesis. If a student elects the thesis option, LAR 897 Proposal Writing will be taken during the eighth semester for 2 credit hours. This course is completed by advance arrangement. LAR 897 students work independently to develop their thesis proposals with their major professor's supervision. LAR 899 Research in Landscape Architecture will be taken in the ninth semester in place of LAR 700 and in the 10th semester in place of LAR 705 and LAR 898.

The K-State 8 General Education areas are covered by courses required in the Landscape Architecture curriculum. Information about the K-State 8 is available at k-state.edu/kstate8 and in the university catalog.

Courses listed in **bold** type represent those hours required within the graduate program. Total graduate credit hours is 33.
