arch_weekly note

Congrats to our Manko and Bowman Forum winners. Excellent work. While that was the most public exhibition, it was inspiring to see so many other strong projects during studio reviews. A big thanks to students and faculty for your efforts over this unique semester.

Stop by tomorrow in the Forum at 2:30 for the second showing of Columbus. Best wishes on your remaining finals and have a safe, relaxing and joyous break.

Best,

Matthew Knox AIA
Professor and Department Head

Congratulations to fourth year student, Kasey Holle for winning the sixth annual Manko Design Competition for her Crossroads KC Film Institute project! The student work presented at the competition on last Friday was of exquisite quality and the jury had a difficult time choosing just one winner.
