arch_weekly note

Welcome to one of the best weeks of the semester. This is one of my favorite times as it is so inspiring to see what our students have done. Faculty and students should feel incredibly proud with so many fine works embellishing the walls of the old Seaton one last time. The schedule of reviews is listed below. Make sure you pop in to as many as you can this week. But most importantly, please plan on attending the Hientzleman + Kremer review Friday afternoon. Even if you are not in fifth-year, come and see where you will be in a year or two and rededicate your focus on doing even better work next year.

On a side note, I finished my 19th marathon yesterday in Lincoln, Nebraska. It was really hot and the last two miles were a struggle. As I was headed to the finish line at the 50 yard line of that awful football stadium, I reminded myself that this was really nothing compared to the efforts you have been putting in the last few weeks to get to this week. OK, it didn't make me go much faster, but it reminded me that if you can get through architecture school you can do anything.

Have a great week.

Matthew Knox AIA
Professor and Department Head

arch_move out

The department will be sending Move Out Procedures to students by the end of the week. Please keep an eye out for these and stop by Seaton 211 if you have questions.

The APDesign Dean's Office recently sent out a Fact Sheet for the Seaton Revitalization + Expansion Swing Space. Every student and faculty member should have received a hard copy of this information. [If you did not, click here to download it.](#)

If you have questions or concerns please come to Seaton 211 or email architecture@ksu.edu.
