O63 with speaker Chris Winfield.

Chris is a passionate entrepreneur, writer and speaker in New York City. With the use of simple systems, techniques and the power of true focus, Chris has taught thousands of successful (but stressed) entrepreneurs and executives how to truly work smarter...not harder. Over the past decade and a half, Chris has worked with people from many of the world's best-known companies, including Disney, Virgin, Macy's, Viacom, Conde Nast, Intuit, NBC, Time, Inc. & many others. He's been featured in the Wall Street Journal, New York Times, NBC's Today Show, USA Today, Fast Company, Forbes, and 200+ other media outlets. He is also a columnist for TIME, Business Insider, and Entrepreneur magazines.

Weigel Library

Student Assistants -

Weigel Library has 8 College of APDesign students employed as library assistants for the 2016 fall semester. During the 77 hours a week Weigel is open these students are in the library to help patrons with their research and/or technology questions.

The assistants are: Alex Booth (ARCH), Eric Schlueter (ARCH), Jacob Coombes (ARCH), Jason Jirele (ARCH), Katelyn Rose (LA), Kelsey Castinado (IAPD), Maggie Schulte (IAPD), and Stasha Thomas (ARCH).

Please ask for their assistance.

Labor Day Holiday Hours -

The library will close Friday, September 2, at 5 pm and remain closed until 8 am on Tuesday, September 6. The library will be closed Saturday, Sunday and Monday, September 3, 4 and 5 for the Labor Day Holiday.

Resource of the Week -

A + U: Architecture and Urbanism - Watch the digital display boards for information regarding this awesome periodical found in Weigel (NA6 .J3 A15). It is one Maxine will surely recommend to you.

This and that -

When you're in Weigel, please remember to bring all library materials you used to the circulation desk, including those items you aren't checking out.

Everything you look at needs a "browse" scan by staff since these stats are vital in determining what stays and what might go, particularly due to tight budgets!

A helpful tip when using Search It, the discovery tool on the K-State Libraries website: to text the call number of a resource hover over the (purple call number) on the screen and Text Me the Call Number will "magically" appear.

K-State Libraries' administration has approved extending loan periods for materials checked out to faculty. Faculty now get two years for materials, taking the form of a 6-month initial loan and 3 automatic renewals.

Make your reservations now for the "Art of Architecture" lecture on August 29, 2016 at 6PM. RSVP to tjackson@ksu.edu.

Art of Architecture

- a companion lecture to go with the current exhibition at The Box Gallery (closing August 26) - discussing the featured models of architectural landmarks - all using the LEGO® brick as a medium.

The exhibit is the work of LEGO Certified Professional Adam Reed Tucker, a former architect and Kansas State University alum who turned to the LEGO brick for inspiration.

The lecture will be at the Center for Architecture & Design, AIA Kansas City on Monday, August 29 at 6pm with a reception following.

Art of Architecture

includes 12 large-scale models that capture the essence of some of the most famous buildings in the world, including the Empire State Building, Jim Mao Tower, the Gateway Arch and the Willis Tower.

After earning degree in Architecture from Kansas State University's College of Architecture, Planning and Design, Tucker worked as an architect throughout the Kansas City and Chicago areas. Adam decided to leave his architecture job to focus on building with a new creative medium, the LEGO brick. In 2007 he became the 7th person to be a Lego Certified Professional -one of only 13 in the world.

Art of Architecture is on display through Aug. 26. The Box Gallery is located in the Commerce Bank Building at 1000 Walnut St., in Downtown KC. Hours are from 8 a.m. to 8 p.m. Monday-Friday. Admission is free and open to the public. The exhibit is a partnership with Kansas State University's College of Architecture, Planning and Design.

The lecture will be at Center for Architecture & Design, AIA Kansas City, 1801 McGee Street, KSMO. If attending please RSVP to tjackson@ksu.edu
