Mogens Smed presents to College of Architecture, Planning & Design

Mogens Smed, CEO, Director and co-founder of [DIRT](#) presented on November 8 in Regnier Forum as part of the Ekdahl Distinguished Lecture Series. Mogens presented on the challenges designers face as well as

his ideas for a more efficient design and construction process. This new process involving prefabricated interior spaces is something that his company, [DIRTT](#), Doing It Right This Time, is working to develop further in both the commercial and residential sectors. While at K-State, Mogens also visited the 5th Year Design Studio taught by Professors Katie Hoke and Vibha Jani and participated in pin-up crits with the 3rd Year Design Studio taught by Professor's Sebnem Demirkan and Hernan Gregorio.

Smed's company, [DIRTT](#), is a manufacturer of prefabricated customizable interior spaces. This technology-driven company combines its proprietary configuration and manufacturing software ICE 3D design with in-house manufacturing to provide clients with an end-to-end solution. They also strive to place a stronger value on the environment within the construction industry. Their prefabricated interiors produce minimal waste and are customized to give customers complete design freedom.

STUDIO DESKS - PUNCH LISTS - WINTER BREAK

APDesign as well as our building design and construction teams continue to work towards a fully secured building, but we still have a few issues that will not be resolved prior to winter break. Additionally, the college needs to switch out studio desks with issues as part of our punch list process with the desk manufacturer.

With the significant activities ahead of us to prepare for the Spring semester, students are being asked to remove their possessions from the building during Winter Break. We know this is an inconvenience, but is important to close out many open projects.

Please remove all personal materials and clean up (trash and recycling is to be bagged and placed in a designated area in the design lab) your studio space no later than Friday, December 15, 2017 at 5:00 PM.

COMMERCE BANK AND W.T. KEMPER FOUNDATION UNDERGRADUATE OUTSTANDING TEACHING AWARDS

Deadline: Wednesday, November 29

The original and current purpose of these awards is to recognize excellence in teaching performance in the undergraduate program and to provide an incentive to achieve that goal.

There are four \$2500 awards made each year for excellence in undergraduate teaching. One award is made each year in the College of Arts and Sciences. The other three awards are rotated each year among six of the other colleges (Veterinary Medicine and Technology and Aviation are excluded), with three colleges making the awards one year and the other three the following year.

The final selections for these awards are made at the college level and all teachers are eligible. It is recommended that once an individual is selected to receive this award, that person should not be considered for a second award.

The selections for the awards are solicited from students, faculty, administrators. Nominations are submitted to the dean of the college in which the teacher is appointed. In order to be considered, the nominee must provide student evaluations from at least two but not more than three undergraduate classes that he or she has taught within the last three semesters. The student evaluations should be those obtained by participating in the program conducted by the Center for the Advancement of Teaching and Learning. It is the responsibility of the college deans to notify all nominees in their colleges of this requirement.
