## A MESSAGE FROM DEAN DE NOBLE

Where did the year go? I learned a long time ago to quit counting my life in semesters as it goes by much too fast. I am sure all of you are feeling that the past two semesters have flown by and those of you graduating are realizing that your time at K-State, once

## UPCOMING EVENTS

MAY

13 - 3:30pm

seemingly such a long commitment, has slipped by rapidly. Trust me, if you do not feel that way now, you will soon.

Regardless of your station or status in APDesign, I hope you move forward into the summer and beyond knowing that you have played a vital role in helping us maintain the qualities that have led to our lofty and deserved national reputation.

This will be a summer unlike any other in our history. We find ourselves vacating a large part of Seaton in preparation for construction. Most of those of us returning, save for faculty and administrators, will be setting up at our 'Swing Space Facility' (feel free to forward ideas for a better facility name for our use..) near the Manhattan Regional Airport. On this front, please check your email and our website regularly this summer for information, forthcoming, on how and when to plan on moving in!

Please know I appreciate everyone's participation in the process of design of the new APDesign Complex and the planning for our lives during the period of construction. Our entire college has shown a great willingness to be resilient and I am sure we will all make the most of period in the diaspora! After all, given that so much of what we do is working to improve the environments of others, and with said improvements there is often a period of transition and discomfort, this is our opportunity to show it is worth it and that our ingrained excellence can prevail regardless.

For those of you graduating, thank you and please know we are both proud to see you reach this milestone and sad to see you part. Seaton is your once and future home so begin to consider how you can return to share your expertise and successes with future generations of students, recalling the selflessness of those that preceded you.

All my best to all of you for a safe and enjoyable summer,

Tim,  
Dean

We are especially interested in hiring equal representation across the college disciplines.

This summer promises to be very dynamic!

### **Interest in Computer Network Services:**

*Have fabrication needs? If you have plans for using the college shop (specifically the CNC router or CNC Plasma cutter) it is encouraged to speak with Richard Thompson (rht@ksu.edu) ASAP. In the past these machines get booked up towards the end of each semester. Even if you are not ready to build, a short conversation now could save you time and headache in the future.*
