Architect Talk | Fran Silvestre and Scenarios for Life

[April 26 2018](#)

6:00 PM - 7:00 PM

Location:

[The Nelson-Atkins Museum of Art](#)

Atkins Auditorium

FREE | Tickets required

Call 816.751.1278

Award-winning Spanish architect and current Victor L. Regnier Distinguished Visiting Professor at Kansas State University, Fran Silvestre, will talk about his studio's creative process. According to architecture critic and journalist David Cohn, "Silvestre's designs are not simply solutions to given design problems, though he tends to present them as such. They absorb and distill the myriad issues of

program, site and context, structure, building technologies and so on, subsuming them into the play of space and form that could be understood as the true subject of his architecture." Fran Silvestre will reveal the most important values of his architecture and the methods his studio uses to achieve such innovative projects.

Weigel Library Updates

Student assistants needed
Fall 2018
Weigel student assistant changes

will necessitate the employment of new assistants for Fall 2018. Employment hours range from 7 to 10 per week. To be considered for employment, pick up an application in Weigel, Regnier 0081. The deadline for applications to be returned is Tuesday, May 8. With your completed application please include a copy of your official KSIS fall class schedule using the "Weekly Calendar View". Both successful and unsuccessful applicants will be notified of employment decisions.

Resource of the Week (Part 2) – Construction and Design Manuals –

In last week's Weigel update article for the e-newsletter I forgot to include the Resource of the Week section highlighting the Construction and Design Manuals by DOM Publishers. These titles are just too good to forget. So they will be featured again this week in Weigel giving you a second chance to take a closer look if you missed them the first time.

Weigel has 20+ titles in this series with more on the way! These books offer everything design students need for studio project solutions. Some of our titles include: Drawing for Architects, Hotel buildings, Architectural Diagrams, Stadium buildings, Mobile architecture, Medical practices, Single-family homes, and Drawing for Landscape Architects.

These books are becoming more popular in APDesign. Let us know what you think.

Displays –

"...but it had a yellow cover!"

Poetry + LEGOs (Storytelling creativity by ENGL663, Advanced Poetry – Dr. Traci Brimhall)

Holi: Festival of Colors

Indian Students Association @ K-State is back with yet another and the most exciting event of the year, Holi: The Festival of Colors. **It is a free event and open to the entire Manhattan community.** This will be the last event of the academic year 2017-18 hosted by ISA.

For those who are still wondering what Holi is, it is the event where all people from various backgrounds come together to celebrate 'unity in diversity' with colors. We will have colored powder which you will throw / apply on each other. We will have water hoses as well. And if it rains on that day, it can't get better. The rain will take charge of sprinkling water!!
 Wear something old, since you might not be able to re-use the clothes.

Event- Holi: Festival of Colors.

Date – 21st April 2018, Saturday

Place- Jardine Plaza near JPs

Time- 1:00 - 3:00 pm

Invite your friends and family. For more information about the event, shoot an email to isa@ksu.edu.

April 17 symposium at K-State looks at neuroscience, architecture and design

The symposium "Meaning in Architecture: Affordances, Atmosphere and Mood," an "Interfaces" event of the Academy of Neuroscience For Architecture, will take place from 8:30 a.m. to 12:30 p.m. Tuesday, April 17, in the College of Architecture, Planning & Design's Regnier Forum.

The symposium brings architects and neuroscientists together for a conversation about human perception of design and building, specifically focusing on the significance of affordances, embodied simulation, atmosphere and mood. It is sponsored by K-State's HOK Studio; Bob Condia, professor of architecture and

Regnier chair for research; and the architecture department.

The symposium is free and open to K-State students, faculty and staff, but reservations are required by contacting Marlina Bedros at medros@k-state.edu.

Presenting at the symposium will be the following experts:

- Brent Chamberlain, K-State assistant professor of landscape architecture and regional & community planning, will present "The Physio-Affective Built-Environment" at 8:30 a.m. As director of the Advanced Landscape Immersion and Visualization Environment, or ALIVE!, Chamberlain combines computer graphics, geovisualization, information visualization and GIScience to conduct scientific inquiry and understanding.
- Colin Ellard, a professor of psychology who specializes in cognitive neuroscience at the University of Waterloo in Canada, and Condia will present "Place, Peripheral Vision and Space Perception: a pilot study in VR" at 9:15 a.m. Their study looks at the consequences of central and peripheral vision in urban plazas of classical and modern articulation.
- Michael Arbib, currently an adjunct professor of psychology at the University of California at San Diego and a contributing faculty member at the NewSchool of Architecture and Design in San Diego, will present "It Takes More Than A Hippocampus to Build a Cognitive Map" at 10:30 a.m. The talk looks at what goes on in the brain or architects designing a building and in the brains of people experiencing architecture. Arbib is a pioneer in the interdisciplinary study of artificial intelligence, neuroscience and computation.
- The symposium will wrap up with Kevin Rooney, a K-State architecture alumnus and owner of Rooney Associates Architects, moderating a panel of the morning's speakers on "How Architects Can Talk to Neuroscientists: How Neuroscientists Can Talk to Architects."

Spring 2018 APDesign Commencement

Saturday, May 12 | 10:00 am in
McCain Auditorium

Commencement rehearsal is Thursday, May 10 | 3:30pm. **REHEARSAL IS MANDATORY** (except for off-campus students). Please be on time.

Tickets for commencement will be given out at rehearsal.
