YOUR FUTURE
OUR BUILDING
As a student in the College of Architecture, Planning & Design, you will attend classes in a beautiful, historic space with modern classrooms, design laboratories and educational resources. A combined renovation and new building project, completed in fall 2017, unites historical and modern spaces.

The Seaton/Regnier Complex is a living laboratory that’s home to our studios, labs and workshops. The beautiful limestone buildings in the center of the Manhattan campus are from the early 20th century, and their history is a daily reminder of our land-grant heritage for our students and faculty.

Studios are where you will learn and perfect skills like drawing and model-making. The studio culture also helps students understand the value and organization of space.

Features of the building:
- 49 design studios in 21 multidisciplinary laboratory spaces.
- 300-person lecture hall with 4K laser projection and conferencing capability.
- 17 dedicated critique spaces and 18 informal critique/collaboration spaces.
- More than 50 fully integrated 70- to 84-inch conferencing video monitors.
- Six indoor 24-hour lounge/collaboration spaces.
- Balcony and rooftop gathering areas with green roofs.
- Library with flex reading room, quiet reading area, group study space, special collections and exterior reading courtyard.
- Exterior courtyard and amphitheater.
- 20,000 square feet of fabrication space, including a large outdoor fabrication yard with 24-hour access to laser cutters and 3D printers.
- LEED Silver classification.
- A modern studio desk and premium chair dedicated for each student.
- After-hours key card security access to the building and labs.

THE APDESIGN EXPERIENCE

It Starts Now
Thinking • Making • Doing

THE APDESIGN DIFFERENCE

As an APDesign student, you’ll work alongside students in all design and planning disciplines. You will not only design and plan but also build and fabricate. As a student at one of the most affordable and highly regarded programs in the nation, you will receive an educational experience that prepares you for excellence in your chosen career path.

CULTURE

Studio forms the core — the heart and soul — of the APDesign student experience. You will have the opportunity to work with students in all the design and planning professions, which is the foundation for building lasting friendships and professional colleagues. The shared experience is engaging, interactive, powerful and fun!

Our building and design labs are secure and accessible to APDesign students 24/7. You will create work that exceeds your initial expectations of yourself and build lasting memories with your friends along the way.

DIGITAL TECHNOLOGY

Computer access and knowledge are vital to your success. For that reason, we strive to offer the most up-to-date design software and programs through constant research and inquiry into the digital tools needed in the professions. Video conferencing technology allows you to connect anytime with practice leaders and experts from across the world. Our degree programs will provide you with the digital knowledge and tools necessary to enter the professional world.
The Paul Weigel Library provides professional assistance and access to materials that enhance teaching, learning and research endeavors of the students, faculty and staff of the college.

You’ll have access to books, periodicals and visual resources that cover or relate to all college disciplines without ever leaving the building:

- 43,000+ volumes and 34,000+ titles.
- 85 print periodicals.
- 1,175+ rare and fragile resources in our special collections.
- Visual resources, online journals and databases.
- Open 77 hours per week during the academic year.

**ENGAGED LEARNING**
Engaged learning is part of our culture. The opportunity to apply knowledge and skills gained in courses to the direct implementation or future vision of a product, furniture, urban design, landscape site or building will further enhance your education. Many programs feature opportunities to work with real communities and organizations making an impact.

**FAB LABS**
Your hands-on education is taken to a new level when you step into the 20,000 square feet of Fabrication Labs. The Fab Labs are beautifully designed to encourage and support your exploration and fabrication of design solutions. You will work with teaching technicians and fellow students in a state-of-the-art facility featuring an amazing array of equipment and machines.

**PREPARED FOR ANY PROJECT**

**Design Research Resources**

**Production**
- **Fabrication Lab:** Contains a variety of general purpose fabrication equipment and tools.
- **Large-bed industrial CNC router.**
- **Plastic thermo-former.**

**Fine Woodworking Lab:**
- A variety of traditional woodworking machines and tools.

**Small CNC Lab:**
- Three small CNC routers for intricate detailing and joinery.

**Upholstery Lab:**
- High-end sewing machines for a variety of fabrics and materials.

**Glass Lab:**
- Kiln for molding and forming glass.

**Metals Lab:**
- Contains a large-bed CNC plasma cutter.
- Variety of sheet metal and bending equipment.
- Large milling machine and lathe.
- Also offers MIG, TIG, stick and spot welding.

**3D Print Lab:**
- Contains 13 — and counting — 3D printers.

**Model-Making Lab:**
- A dedicated space for intricate models and small prototypes.

**Center for Design Excellence:**
- A large, open space for special design projects, assembly, research and exhibits.

**Spray Finish Lab:**
- Industrial spray booth for safely applying high-end finishes and paints.

**Visualization**
- 20-foot panoramic screen
- Oculus Rift and VIVE virtual reality headsets
- Immersion and Visualization Environment
- Heliodon solar analysis

**Testing**
- Environmental Envelope Lab
- Fluvial Lab
- Four experimental green roofs at Memorial Stadium, Seaton Hall, Regnier Hall
- The Meadow research site
- Rain garden research site

myapd@k-state.edu | apdesign.k-state.edu | 7
Part of our mission is to introduce you to as many places and opportunities as possible to enrich your learning. From the beginning, all students travel to places with exemplary design, often in conjunction with current projects. First-year students sketch and observe at the Nelson Atkins Museum of Art in Kansas City, Missouri, and at Frank Lloyd Wright’s Allen House in Wichita, Kansas. Travel beyond the first year includes visiting professional environments such as design firms, showrooms, manufacturers and state-of-the-art green infrastructures. Our students and faculty have most recently visited the following places:

- Boston, MA
- Chicago, IL
- Columbus, IN
- Dallas-Fort Worth, TX
- Denver, CO
- Grand Rapids, MI
- Los Angeles, CA
- New York City, NY
- Portland, OR
- San Diego, CA
- San Francisco, CA
- Seattle, WA
- Washington, DC

Some field trips and faculty-led study tours are abroad. APDesign students have visited Canada, China, Japan, Norway, Mexico, South Korea and Switzerland in recent years.

EXPERTS FROM AROUND THE WORLD COME TO APDESIGN

We bring the world to you by inviting experts to join us in person and virtually to participate in critiques of your projects, partner in sponsored studios, give lectures and much more. The Ekdahl Distinguished Lecture Series brings eight outstanding lectures to campus each year in addition to several department-specific lectures and guests, enhancing your experience as a student in APDesign.
We want you to spend time away from campus augmenting your education through a semester or summer experience of education abroad, professional internship and/or the Kansas City Design Center.

EDUCATION ABROAD

Students have opportunities to study abroad, usually later in their academic career. APDesign collaborates with study abroad programs in Italy, Australia, Germany, Czech Republic, Denmark, Spain and other exciting locations. Studying abroad affords students new and varied opportunities to study design and planning in different venues.

INTERNSHIP

Internship opportunities at design and planning firms allow students to spend a semester and/or summer experiencing what it might be like to work in the allied design professions. We help students identify internships that align with their interests in firms across the nation and around the world.

KCDC

Located in the heart of downtown Kansas City, the Kansas City Design Center, or KCDC, is a nationally recognized partnership of local civic leaders, professional designers, and design/planning students and faculty. KCDC engages students in a learning laboratory that actively explores Kansas City’s future development.

WHAT DEGREE IS RIGHT FOR ME?

Our community of faculty and students from different backgrounds provides an enriched experience for everyone.

I DO NOT HOLD A BACHELOR’S DEGREE

High school graduates and transfer students
4-year bachelor’s degree

BACHELOR OF SCIENCE IN
REAL ESTATE & COMMUNITY DEVELOPMENT
Help reimagine main streets and downtown districts.
120 Total credit hours required

Nonbaccalaureate master’s degrees

MASTER OF ARCHITECTURE*
Learn to think, design, shape, make and advocate for a better world.
139 Undergraduate credit hours | 31 Graduate credit hours | 170 Total credit hours required
Accredited by the National Architectural Accrediting Board. Learn more about accreditation at naab.org and professional licensing at ncarb.org.

MASTER OF INDUSTRIAL DESIGN
Create products that have a lasting effect on people.
139 Undergraduate credit hours | 31 Graduate credit hours | 170 Total credit hours required
Approved by the National Association of Schools of Art and Design. Learn more at nasad.arts-accredit.org.

MASTER OF INTERIOR ARCHITECTURE
Create furniture, products and spaces that transform the interior world.
139 Undergraduate credit hours | 31 Graduate credit hours | 170 Total credit hours required
Accredited by the Council for Interior Design Accreditation and approved by the National Association of Schools of Art and Design. Learn more about accreditation at accredit-id.org and nasad.arts-accredit.org and the National Interior Design Qualification at cida.org.

MASTER OF LANDSCAPE ARCHITECTURE*
Design places that connect people to the natural world.
119 Undergraduate credit hours | 34 Graduate credit hours | 153 Total credit hours required
Accredited by the Landscape Architectural Accreditation Board. Learn more about accreditation at asla.org/accreditationlaab.aspx and professional licensure at clarb.org/take-the-exam/check-eligibility.

MASTER OF REGIONAL & COMMUNITY PLANNING*
Remake cities into dynamic places to live, work and play.
92 Undergraduate credit hours | 46 Graduate credit hours | 138 Total credit hours required
Accredited by the Planning Accreditation Board. Learn more about accreditation at planningaccreditationboard.org and professional certification at planning.org/certification.
I HOLD A BACHELOR’S DEGREE

But not necessarily in the design/planning professions
2-3+ year master’s degrees | Postbaccalaureate degree

MASTER OF ARCHITECTURE*
(3+ years)
72 Undergraduate credit hours | 31 Graduate credit hours
103 Total credit hours required
Accredited by the National Architectural Accrediting Board. Learn more about accreditation at naab.org and professional licensing at ncarb.org.

MASTER OF INDUSTRIAL DESIGN
(3+ years)
10 Undergraduate credit hours | 31 Graduate credit hours
111 Total credit hours required
Approved by the National Association of Schools of Art and Design. Learn more at nasad.arts-accredit.org.

MASTER OF INTERIOR ARCHITECTURE
(3+ years)
80 Undergraduate credit hours | 31 Graduate credit hours
111 Total credit hours required
Accredited by the Council for Interior Design Accreditation and approved by the National Association of Schools of Art and Design. Learn more about accreditation at accredit-id.org and nasad.arts-accredit.org, and the National Council for Interior Design Qualification at cidq.org.

MASTER OF LANDSCAPE ARCHITECTURE*
(3+ years)
53 Undergraduate credit hours | 34 Graduate credit hours
87 Total credit hours required
Accredited by the Landscape Architectural Accrediting Board. Learn more about accreditation at psla.org/accreditationlaab.aspx and professional licensure at clarb.org/take-the-exam/check-eligibility.

MASTER OF REGIONAL & COMMUNITY PLANNING*
(2 years)
46 Graduate credit hours | 46 Total credit hours required
Accredited by the Planning Accreditation Board. Learn more about accreditation at planningaccreditationboard.org and professional certification at planning.org/certification.

MASTER OF SCIENCE IN COMMUNITY DEVELOPMENT
(online program)
36 Credit hours required

I HOLD AN ACCREDITED DEGREE

In one of the design/planning professions
2-year master’s degree | Post-professional

MASTER OF SCIENCE IN ARCHITECTURE*
Minimum of 30 credit hours

PH.D.*
Designed for students who have earned a master’s degree coupled with relevant professional, research or creative work experience.
60 Credit hours required
For additional information visit apdesign.k-state.edu/academics/phd.

MINOR/CERTIFICATE
Designed for students in APDesign, as well as other majors.

COMMUNITY PLANNING MINOR
15 Total credit hours required

COMMUNITY DEVELOPMENT CERTIFICATE
(online program)
12 Total credit hours required

Real Estate & Community Development

The new Bachelor of Science in Real Estate and Community Development (BS RECD) program uniquely bridges community development and business, preparing students to:

- Bring together expertise in community development/social values and business/real estate, focusing on people and place.
- Prepare for future workforce areas in downtown development programs, business improvement districts, environmental groups, and in the public, private and non-governmental organizational sectors.
- Make connections between programs in APDesign and the College of Business Administration.

In the BS RECD curriculum, students will have the opportunity to participate in a study abroad experience and/or complete a professional internship.

YOUR FUTURE BEYOND REAL ESTATE & COMMUNITY DEVELOPMENT

Graduates of the program will be ready to work in the following sectors:

- Nonprofit organizations (affordable housing programs).
- Government (environmental or transportation agencies).
- Corporate entities (social responsibility divisions or initiatives.)
- Social institutions (job training as economic development).
- Financial enterprises (banking institutions’ community investments and/or venture capital programs).
- Private real estate development firms (with community-minded focus).
PROGRAM HIGHLIGHTS
- New four-year bachelor’s degree.
- Work alongside our longstanding, award-winning and highly ranked graduate program faculty.

BEYOND THE CLASSROOM
Students will consider built capital and learn how to map assets. Students will work to help reimagine main streets and downtown districts.

“You’re aware of community development challenges and interested in helping others and making quality places to live.”
ENVD: YOUR FIRST YEAR
Environmental Design Studies Program

The Environmental Design Studies Program is APDesign’s first-year program of study for all students pursuing our five-year Master’s degrees. You will explore the design professions while directly engaging in design work that provides a strong foundation for your education.

Two ENVD options are available. The studio option leads to a degree in architecture, interior architecture, industrial design or landscape architecture. The planning option leads to a degree in regional & community planning. Both options provide an introduction to the design and planning professions. For most students, it is an introduction to a new way of seeing and thinking about the environments we occupy.

FIRST-YEAR STUDENTS TAKE SIX REQUIRED ENVD COURSES:

ENVIRONMENTAL DESIGN STUDIO

The two-semester Environmental Design Studio introduces the visual and verbal vocabulary employed in the creation, definition and communication of space. Each ENVD studio class consists of approximately 18 students. Studio is a hands-on design course where you will draw, build models, take field trips and more. To experience diverse approaches, students take studio with a different professor each semester. The professors who teach in the first-year program are dedicated to the college’s teaching mission and to providing a challenging and supportive academic experience.

* Not required for the planning option.

STUDIO SEMINAR

The studio is the core setting for the design and planning programs in APDesign. Information that is both common and critical to the work being done in studio, as well as some of the best practices to employ with regard to managing oneself in this environment, are covered in this course.

* Not required for the planning option.

HISTORY OF THE DESIGNED ENVIRONMENT

Because the environments we create are an expression of culture, students enroll in the two-semester course, History of the Designed Environment. This course introduces students to the connections between our past and present society and to the design professions as civic art.

SURVEY OF DESIGN PROFESSIONS

Survey of Design Professions explores each of the disciplines within the allied design and planning professions and gives students an opportunity to become better acquainted with professional opportunities in those fields.
You’ll be surrounded by constant inspiration and support in APDesign. Interact with all year levels and degree programs daily through welcome events before classes begin, getting to know peer educators assigned to each studio section and informally establishing relationships with upperclassmen who share your physical design studio space.

**SUPPORT**

**PEER EDUCATORS**
Learn from second- through fifth-year students as they work together and serve as peer educators assigned to your first-year studio class.

**STUDIO SPACE**
As an ENVD student, you have 24/7 access to your assigned studio space with an ergonomic desk and chair.

**ACADEMIC ADVISING**
Academic advising is highly valued in APDesign, and our professional academic advisors are a critical piece of your academic support system. They provide direction and counsel as you navigate demanding professional curricula and celebrate your many successes along the way.

**APDESIGN CAT COMMUNITY**
Live with fellow APDesign students as you get to know your ENVD classmates, join study groups and meet regularly with a current APDesign student serving as the residential learning assistant. Attend weekly meals or meetings with faculty members, administrators and upper-level students. Living with your classmates will help you stay focused and motivated.
Think. Design. Make. These three actions shape the world. They are also the holistic foundation for the highly regarded Master of Architecture program at K-State. Our students learn to think critically and deeply, allowing them to engage the issues and contexts architecture addresses. Design is the tool architects use to effect change in the world and, with small classes and high contact hours, the design studio is the beating heart that powers the Master of Architecture curriculum. At K-State, design thinking leads to making, the act of creation in the physical world. Through speculation (modeling and drawing), experimentation (large-scale prototyping) and full-scale building projects, students gain confidence, growing as designers through direct interaction with the world around them.

YOUR FUTURE BEYOND ARCHITECTURE
In one of the last true generalist degree programs, architecture students accumulate skills and perspectives necessary to succeed in a wide variety of fields:

- Licensed professional architect.
- Architectural specialist (historic restoration, sustainability, adaptive reuse, etc.).
- Product designer (furniture, building materials, textiles, etc.).
- Artist or graphic designer.
- Filmmaker or video game designer.
- Urban designer/planner.
- Property developer.
- Building client representative.
- Professor, researcher or writer.
- Politician or advocate.
PROGRAM HIGHLIGHTS

- Highlighted by Metropolis Magazine as one of four architecture programs defining the future of design in its Future100 program, metropolismag.com/programs/2023-future100-schools-showcase

- Faculty are nationally and internationally recognized for their dedication to the profession, creative work, and scholarship.

BEYOND STUDIO

The Net Positive Studio, led by Associate Professor Michael Gibson, designs and constructs housing that is affordable to occupy and operate. An advanced building envelope — paired with passive strategies, highly efficient systems and solar panels — delivers homes that have not only low rent but also a negligible power bill. netpositivestudio.org

“\You are drawn to both art and science and want to address the real issues people face today to make a lasting imprint on human society.”
Industrial Design

Our diverse industrial design program focuses on products for the built environment, ranging in scale from exhibit design to handheld devices, from consumer goods to furniture. Exploring material life cycles and upcycling alternatives, students develop a sense of environmental stewardship, leading them to become passionate innovators creating superior products for our future. Our safe and creative environment provides the perfect platform for you to push boundaries and bring your ideas to life. You will also gain hands-on production experience in our fully equipped wood, metal, plastic and upholstery labs, working with both traditional and modern manufacturing equipment.

YOUR FUTURE BEYOND INDUSTRIAL DESIGN

Career possibilities for graduates of the industrial design program could include:

- Consumer product designer.
- Entertainment designer.
- Package designer.
- Furniture designer.
- Graphic designer.
- User interface designer.
- Experience designer.
- Toy designer.
- User-centered designer.

by Grant Huntsman
Immersed within our curriculum are abundant opportunities for collaboration with industry partners. By engaging with professionals in the field, our students gain invaluable experiences that have opened doors to remarkable pathways. Some have secured internships, while others have even earned royalties for products they designed during their coursework.

Moreover, our program features a unique “Start-up” Studio during your fourth-year spring semester. During this comprehensive experience, you will develop projects specifically tailored to small-batch product development. This innovation incubator nurtures your entrepreneurial spirit and equips you with the necessary skills to comprehend all aspects of launching a product into the marketplace. By engaging in this transformative journey, you will refine your design abilities and gain a comprehensive understanding of the business and marketing elements crucial for success in the industry.

“you want to design innovative products for diverse audiences and purposes while gaining entrepreneurial and hands-on design skills.”

Approved by the National Association of Schools of Art and Design

by Dustin McDermott

PROGRAM HIGHLIGHTS
National competition recognition
In just a few years, the industrial design program has had four finalists in national competitions and one regional winner.

Industry partnerships
This program currently works with two national companies for product development.

Two of the products designed in our studios are being developed for marketplace release soon.
Interior Architecture

Our studios serve as vibrant hubs of creativity, presenting you with thought-provoking and challenging projects that span the entire spectrum of interior design. From intimate spaces to large-scale ventures, you will have the opportunity to delve into projects that inspire and ignite your imagination. Through these hands-on experiences, you will gain a profound understanding of how to (re)imagine spaces, merging functionality with aesthetic appeal.

One of the unique aspects of our program is the emphasis on firsthand experience. In our furniture studios, you will have the chance to witness the artistry of material integration. Equipped with state-of-the-art wood, metal, plastic, and upholstery labs, you will explore the intricacies of craftsmanship and learn how various materials come together to form exceptional furniture pieces. Our curriculum embraces both traditional and modern manufacturing techniques, empowering you to work with a diverse range of equipment.

YOUR FUTURE BEYOND INTERIOR ARCHITECTURE

Career possibilities for graduates of the interior architecture program could include:

- Interior architect.
- Furniture designer.
- Historic preservationist.
- Exhibit designer.
- Space planner.
- Graphic designer.
- Set designer.
- Lighting designer.
As you progress through our program, you’ll embark on a dynamic journey that spans a diverse range of projects. From crafting intimate dwellings like tree houses or tiny homes to designing large-scale educational and corporate offices, you’ll explore the full spectrum of interior architecture possibilities. This diversity of projects serves as a pillar of strength for our program, allowing you to develop a versatile skill set and adapt to various design challenges.

In our studios, you’ll often have the unique opportunity to collaborate with real-world clients and industry partners. By working closely with them, you’ll gain hands-on experience in translating their visions into reality. These projects will give you the chance to leave a lasting impact and showcase how your innovative designs can transform spaces and furniture to shape a brighter future.

You want to create cutting-edge, sophisticated interior spaces with a focus on the people that use them.”
Landscape Architecture

The Master of Landscape Architecture (MLA) program provides students with a broad range of activities in the studio, classrooms and field to develop mastery of the profession. Woven into the course of study are ecology, sustainability, construction and scales of analysis, and design from site to regional. Classes combine design, technical skills, history, theory, natural science and research through hands-on learning in the field, fabrication shops and studio. Knowledge and skills gained prepare graduates to conserve and restore landscapes that create and remake cities for brighter, greener futures. Students engage in interdisciplinary projects and complete their education with an independent master’s report or thesis.

YOUR FUTURE BEYOND LANDSCAPE ARCHITECTURE

Graduates of the Master of Landscape Architecture program are prepared to design, plan, manage and steward the land in natural and urban environments. Career opportunities could include:

- Licensed professional landscape architect.
- Ecological restoration planner.
- Urban designer.
- Zoo designer.
- Campus and community master planner.
- Green infrastructure specialist.
PROGRAM HIGHLIGHTS

Our alumni:

- Helped make New York City more pedestrian- and bike-friendly.
- Redesigned and rebuilt New Orleans’ 9th Ward after Hurricane Katrina with sustainable homes and landscapes.
- Developed the award-winning, innovative master plan shaping The Ohio State University’s future.

“You want to design places that connect people to the natural world, creating landscapes for people’s everyday lives and their most memorable moments.”

BEYOND STUDIO

Landscape architects have specialized knowledge of natural systems that we apply to address ecosystem and human community needs. Faculty and students apply their knowledge and skills in real communities, allowing you to practice the leadership skills important to your future career. Integration of faculty research and creative activities into studios allows you to partner with faculty on projects exploring current topics in landscape architecture and assisting communities and clients.

Accredited by the Landscape Architectural Accreditation Board
The Master of Regional & Community Planning (MRCP) program offers an unparalleled opportunity for students to work across the scales of design and planning, from site design review to regional visioning. Courses build planning knowledge, values, ethics and skills. A sequence of carefully orchestrated classes and experiences specific to a student’s degree path leads to completion of a report or thesis. A multidisciplinary committee of faculty guides students’ work, allowing in-depth understanding of factors influencing regional and community issues. Our interdisciplinary approach leads to inspired and thoughtful solutions for the future.

YOUR FUTURE BEYOND REGIONAL & COMMUNITY PLANNING

Graduates of the MRCP program are prepared to lead in a broad range of public, private and nonprofit sector planning environments:

- Neighborhood, city and regional planner.
- Transportation specialist.
- Health and housing development designer.
- Economic developer and city manager.
- Advocate.
- Resource planner.
- Urban designer and historic preservationist.
PROGRAM HIGHLIGHTS

Our alumni:

- Led a team of engineers, pilots and psychologists to plan the airspace over the United States.
- Worked with the Mmofra Foundation to help plan learning landscapes for children in Ghana.
- Have been responsible for ecological planning for the state of Washington.

BEYOND THE CLASSROOM

Faculty and students apply their knowledge and skills in real communities, allowing students to practice the leadership skills important to their future careers. Collaborations with the landscape architecture program merge complementary knowledge and skills to tackle environmental and societal dilemmas in communities. In addition, faculty research, scholarship and creative activities open doors for students to partner with faculty on cutting-edge projects. These opportunities to apply knowledge from class to real-world situations bring planning to life.

“You seek to remake cities into dynamic places to live, work and play.”
# WHAT TO EXPECT

## COLLEGE CLASSES TO CONSIDER TAKING BEFORE YOU ARRIVE

- College Algebra *(or higher-level math)*
- Expository Writing I
- Expository Writing II
- Public Speaking
- Physics *(must be equivalent to Descriptive Physics or General Physics I)*
- General electives *(Refer to pages 27-31 to see the number of general electives required by each degree program.)*

Find more information about transfer equivalency, advanced placement and more at [apdesign.k-state.edu/prior-learning](http://apdesign.k-state.edu/prior-learning).

## CONTACT

Your personal contact in APDesign is the director of student recruitment. Reach out with questions: myapd@k-state.edu, 785-532-5047.

|                | **Total**                     | 17             |  |

*A minimum of 29 general studies elective credits must be in non-architectural studies courses. Courses are part of the K-State 8 General Education program, in addition to any course in communications, history, humanities, social sciences, natural sciences, foreign languages or mathematics will fulfill this requirement. They may be taken in pursuit of a minor. They may be taken any time prior to or during the Architecture program and may include K-State approved AP, IB, CLEP and transfer credit. General studies electives may include K-State approved extracurricular work as allowed by university regulations. In addition, there is a 1 credit unrestricted elective.

**The M.Arch. degree requires 27 hours of professional support electives, 12 for undergraduate credit and 15 for graduate credit. Of the undergraduate credits, at least 3 hours must be planning elective credits; the other 9 are usually fulfilled in the eighth semester as part of the fourth-year study options. At least 6 hours of the graduate-level PSE must be architecture seminars. See the Master of Architecture Handbook for further details. Students may not count more than 3 total hours of department-approved extracurricular PSE credits, such as Oz, NOMAS or Plot Club, toward graduation. PSE credits correspond to optional studies as listed in the 2014 NAAB Conditions for Accreditation.

***See pages 3 and 4 of curriculum form. Undergraduate elective courses must fulfill the Human Diversity in the United States and Global Issues & Perspectives areas of K-State 8 general education program. The other seven areas are fulfilled by required courses. Information about K-State 8 is available at k-state.edu/kstate8 and in the university catalog.

Courses listed in **bold** type represent those hours required within the graduate program. Total graduate credit hours is 31.

---

*All minimum of 15 general elective credits must be taken. General electives may be taken in pursuit of a minor. They may be taken any time prior to or during the Interior Architecture & Industrial Design program and may include K-State-approved AP, IB, CLEP and transfer credit. Students may not count more than 3 total hours of recreation credits toward graduation.

**Focus Courses include IARC 605, as well as other department head approved courses, including those associated with a minor program.

**Electives taken in the ninth semester should support student interest, including professional electives and study abroad courses. These may also be associated with a minor program.

Courses listed in **bold** type represent those hours required in the graduate program. Total credit hours required for Graduate School program of study is 31.

## ENVIRONMENTAL DESIGN STUDIES PROGRAM

### FIRST SEMESTER
- **ENVD 201** Environmental Design Studio I 4
- **ENVD 250** History of Designed Environment I 3
- **ENVD 203** Survey of Design Professions 1
- **ENVD 204** Studio Seminar 1
- **MATH 100** College Algebra 3
- **COMM 105** Public Speaking 1A 2
  *General Elective 3

### SECOND SEMESTER
- **ENVD 202** Environmental Design Studio II 4
- **ENVD 251** History of Designed Environment II 3
- **ENGL 100** Expository Writing I 3
- **PHYS 115** Descriptive Physics 5

### LANDSCAPE ARCHITECTURE PROGRAM

### THIRD SEMESTER
- **LAR 220** Drawing Landscapes Studio 5
- **LAR 230** Modeling Landscapes Studio 5
- **LAR 101** Introduction to Landscape Architecture 3
- **LAR 350** Introduction to Plants 1
- **LAR 010** Travel: Regional 1 0

### FOURTH SEMESTER
- **LAR 433** Landscape History and Design Studio 5
- **LAR 420** Socio-Ecological Systems Studio 5
- **LAR 322** Ethics and Environmental Dilemmas 3
- **LAR 351** Plant Patterns and Use 1
- **LAR 020** Travel: Regional 2 0
- **ENGL 200** Expository Writing II 3

### SUMMER SEMESTER
- **LAR 430** Narratives and Placemaking Studio 4
- **LAR 425** Narratives and Placemaking Seminar 2
- **LAR 352** Landscape Performance Lab 3
- **LAR 030** Travel: Narratives and Placemaking 0

### FIFTH SEMESTER
- **LAR 442** Site Research and Design Studio 5
- **LAR 438** Site Design Implementation 5
- **LAR 353** Plant Selection 1
- **LAR 040** Travel: Major City 1 0
- **LAR 444** Career and Academic Planning 2
- **PLAN 315** Introduction to City Planning 3

### SIXTH SEMESTER
- **LAR 646** Community Engagement Studio 5
- **LAR 439** Master Plan Design and Implementation 5
- **LAR 354** Landscape Restoration 1
- **LAR 050** Travel: Major City 2 0
- **LAR 445** Career Development Communications 1
  *General Elective 3

### SEVENTH SEMESTER
- **LAR 740** Advanced Studio 5
- **LAR 725** Research Methods 3
- **LAR 750** Advanced Seminar 2
- **LAR 754** Pro Prac: Office Practices 1

### EIGHTH SEMESTER**
- **KCDC or Study Abroad Option:**
  - **LAR 703** Off-Campus Studio 5
  - **Professional Electives** 9

### NINTH SEMESTER
- **LAR 705** Master’s Project Studio 1 5
- **LAR 897** Proposal Writing 2
- **LAR 753** Pro Prac: Prof. Responsibility 1

### TENTH SEMESTER
- **LAR 710** Master’s Project Studio 2 3
- **LAR 898** Master’s Report 2

### TENTH SEMESTER**
- **LAR 710** Master’s Project Studio 2 3
- **LAR 898** Master’s Report 2

### Notes:
- The K-State general education areas are covered by courses required in the Landscape Architecture curriculum. Information about K-State is available on the web and in the university catalog.
- All required courses taught in the Landscape Architecture and Regional and Community Planning programs that are counted toward the degree must be passed with a grade of C or better.
- *A minimum of 6 general elective credits must be taken. General electives may be taken in pursuit of a minor. They may be taken any time prior to or during the Landscape Architecture program and may include K-State-approved AP, IB, CLEP and transfer credit. Students may not count more than 3 total hours of recreation credits toward graduation.
- Graduate School admission is contingent upon completion of all required courses in the third through sixth semesters.
- **Off-campus semester:** Two distinct study opportunities are offered, each requiring 14 credit hours. The study abroad and the internship options have course requirements that substitute for the 9 professional elective credit requirements. If the internship option is not selected during the seventh or eighth semester, a summer internship is required before graduation.
- **Six credit hours of the required graduate-level professional electives must be LAR courses. Students may petition for an exception to this policy if there is a demonstrated academic benefit.**

---

The K-State B general education areas are covered by courses required in the Landscape Architecture curriculum. Information about K-State is available on the web and in the university catalog. All required courses taught in the Landscape Architecture and Regional and Community Planning programs that are counted toward the degree must be passed with a grade of C or better.

*A minimum of 6 general elective credits must be taken. General electives may be taken in pursuit of a minor. They may be taken any time prior to or during the Landscape Architecture program and may include K-State-approved AP, IB, CLEP and transfer credit. Students may not count more than 3 total hours of recreation credits toward graduation.

Graduate School admission is contingent upon completion of all required courses in the third through sixth semesters.

**Off-campus semester:** Two distinct study opportunities are offered, each requiring 14 credit hours. The study abroad and the internship options have course requirements that substitute for the 9 professional elective credit requirements. - PLAN 897 Proposal Writing 3
- PLAN 836 Plan Making 5
- PLAN 812 Planning Theory and Law 3
- LAR 500 Site Planning and Design 3
- PLAN 020 Field Trip 2 0
- **Total:** 14

**NINTH SEMESTER**
- PLAN 730 Planning Professional Practice 3
- Professional Elective** 3
- Professional Elective** 3
- Professional Elective** 3
- **Total:** 12

**TENTH SEMESTER**
- PLAN 705 Master’s Project 3
- PLAN 898 Master’s Report Professional Elective** 2
- Professional Elective** 3
- Professional Elective** 3
- **Total:** 11

---

*A minimum of 15 general elective credits must be taken. General electives may be taken in pursuit of a minor. They may be taken any time before or during the Regional & Community Planning program and may include K-State-approved AP, IB, CLEP and transfer credit. Students may not count more than 3 total hours of recreation credits toward graduation.

Professional Electives must include 6 graduate credit hours of PLAN courses.

All required courses taught in the Landscape Architecture and Regional & Community Planning programs that are counted toward the degree must be passed with a grade of C or better.

Courses listed in **bold** type represent those hours required within the graduate program. Total graduate credit hours is 46.

APD Pro
APD Pro is a professional development program offered to you as an APDesign student. The mission of APD Pro is to enhance your experience and provide you with a competitive advantage as you transition to the workplace. The programs offered to you through APD Pro will give you the career skills employers are looking for via workshops, lectures, seminars, professional mentoring and networking opportunities.

- More than 60% of APDesign students participate in APD Pro each year.
- For more information on APD Pro, please visit apdesign.k-state.edu/apd-pro

DesignExpo
DesignExpo is APDesign’s career fair. Firms from across the U.S. send representatives to meet with and provide information to our talented students on job and internship opportunities. DesignExpo is a time for students to showcase their skills and portfolios and get feedback from professionals.

LECTURES AND EXHIBITIONS
Lecturers from around the world come to APDesign each year to enhance students’ educational experiences by providing opportunities to see and hear about the work of skilled professionals. The Chang and Cassias galleries in the Seaton/Regnier Complex display a variety of exhibitions for students’ exploration and knowledge enhancement.

APD PRO MENTOR PROGRAM
APD Pro students have the opportunity to be matched with a professional mentor in their second year as a part of the APD Pro Mentor Program. Our APD Pro Mentors are alumni and friends of the university with proven expertise in the design, planning and related professions. For more information on the APD Pro Mentor Program, please visit apdesign.k-state.edu/mentor.

CAREER SKILLS
To help students prepare for their future careers, APDesign partners with K-State’s Career Center to offer several career preparation activities. Each year, students have access to portfolio reviews and resume workshops. Mock Interviews, which take place each fall, give upper-level students a chance to interview with representatives from design and planning firms and receive constructive feedback.

COMMITTED TO YOUR PROFESSIONAL GOALS

96% OF APDESIGN GRADUATES ARE EMPLOYED OR FURTHERING THEIR EDUCATION WITHIN SIX MONTHS OF GRADUATION.
A WORLD OF POSSIBILITIES
APDesign alumni practicing architecture, interior architecture, industrial design, landscape architecture, and planning enjoy a variety of specializations throughout their careers, such as:

Game design/animation • Set design • Graphic design • Fabrication/manufacturing • Theme park design • Furniture design/construction • Software development • Clothing/shoe design • Housewares design • Facilities management • Real estate development • Transportation planning • Stormwater management • Educator/academic leadership • Natural resource management • Lighting design • Ecological restoration • Park planning/design • Luxury ship and yacht design • Exhibit/retail display design • Visual effects art • Event venue design

THE APDESIGN CONNECTION
APDesign alumni provide experience and networking opportunities that help our current students thrive through philanthropy, advocacy and direct engagement. Check out some of our successful alumni who participated in community-engaged learning during their time at APDesign.

Samantha McCloud  AIA, NCARB  (MARCH ’13)
Architect | Design Manager, Gensler
Founding president of K-State’s Women in Design organization.

Garrett Steinlage  NCIDQ  (MIAPD ’17)
Associate | Product Manager, Populous
Co-designed “Roo” as a student, an award-winning occasional table developed in an industry partnership with OFS, a national manufacturer of furniture.

Aaron Bisch  AIA  (MIAPD ’15)
Architect | Designer | Associate, Gensler
Focused master’s report on a model school for a Nicaraguan community, in collaboration with a nonprofit organization and landscape architecture graduate.

Nick Mercado  MLA  (’15)
Designer II | Landscape Architect, Snøhetta
Built custom steel art for ICT Pop-Up Urban Park, a food truck park in downtown Wichita, KS.

Samantha Estabrook  (MRCP ’19)
Planner | Atkins
Engaged in revisioning projects for the city of Manhattan, KS, and the city of Marysville, KS.

</tr>
</tbody>
</table>

| **Other estimated costs** |                 |                       |
| Books, supplies and field trips | $1,800 | $1,800 |
| Transportation | $1,152 | $1,152 |
| Personal costs | $3,060 | $3,060 |
| **Total other estimated costs** | $6,012 | $6,012 |

| **Total expenses (BILLED AND OTHER)** | $30,518.32 | $48,517.68 |

* First-year students are required to live on campus. This estimate is based on the median of on-campus housing at K-State. Options range in cost from $5,660-$9,650. *Food options for meal plans range from $2,290-$5,140.

**To learn more about the Wildcat Nonresident Award, visit k-state.edu/scholarships.

APDESIGN IPAD PROGRAM + PURCHASING A COMPUTER

APDesign provides incoming ENVD students with an iPad for their use while enrolled in the college. First-year students in Environmental Design Studies will not need a computer in studio. We do not recommend purchasing your required computer until the end of first year. Incoming B.S.RECD students will need a computer. The Office of Student Financial Assistance can help determine if additional aid is available when you need to purchase your computer.

FIFTH YEAR FELLOWSHIP

Students in the five-year master’s degree programs have the opportunity to apply for a 5th Year Fellowship. The goal of the fellowship is to eliminate the majority of tuition cost for a student during the fifth year of study. In some cases, a Fifth Fellowship may be awarded for tuition, fees and housing. In 2024, we expect to award more than fifty 5th Year Fellowships with that number ever-growing each year!

SCHOLARSHIPS / AWARDS - PRIORITY DATE DEC. 1

You are encouraged to complete the university’s admission application each year to be considered for university, college and departmental scholarships. APDesign awards college and department-level scholarships based on eligibility requirements established by the scholarship donor(s). These scholarships are made available through the generosity of alumni and friends of APDesign. More information about university scholarships and the application for scholarships can be found at k-state.edu/scholarships.
APPLY TO BECOME AN APDESIGN STUDENT
Nonbaccalaureate master’s degree program

APPLICATION DEADLINES
DEC. 1
For general university scholarship/award consideration

FEB. 1
For consideration into the College of Architecture, Planning & Design

APPLY TO KANSAS STATE UNIVERSITY
Visit the undergraduate admissions page at k-state.edu/apply.

- Choose one of the five-year master’s degree programs in APDesign as your intended major on the K-State application. (Architecture, Interior Architecture, Industrial Design, Landscape Architecture or Regional & Community Planning)

- Pay the university’s application fee.

- Provide academic information.
  The self-reported GPA and ACT or SAT scores provided on the application to K-State will be used for preliminary review. High school students should send official transcripts to k-state@k-state.edu or unofficial transcripts to myapd@k-state.edu for complete review of their applications. Transfer students must send all official college transcripts, including the most recent coursework and grades, to the K-State Office of Admissions.

BASIS FOR ADMISSION DECISIONS
Admission decisions for high school students will be based on cumulative high school GPA. Admission decisions for transfer students will be based on cumulative college GPA.

Early acceptance to APDesign
If you apply before the Dec. 1 deadline and have a 3.5 GPA or above, you will be offered early admission to APDesign. If you do not meet the requirements for early admission, your application will be reviewed and you will be notified of the admission decision in early March. If you are curious about how competitive you are for admission, please reach out to us at myapd@k-state.edu.

Real Estate & Community Development Program
The bachelor’s degree in Real Estate & Community Development is not a selective program. Students will need to meet K-State admission requirements. For more info, please visit k-state.edu/freshmen-requirements.
