

Fall 2022 and Spring 2023 ENVD Studio Supplies and Books

Due to current supply chain issues, we are in negotiations with Follet (our university bookstore) and will update you later in the summer about costs and availability of the Starter Kit and the Drawing Board through Follet. You are welcome to seek alternative sources and if they meet your budget begin to purchase them for the fall semester.

What books are required for the fall semester?

Required readings will be assigned from these required books during each design exercise. It is important for your future career to build your professional library during your education—**purchase, do not rent**. It is highly suggested that you buy a physical copy (versus digital copy) since you will be using these books in studio and outside.
