Education Abroad options during spring semester <u>must</u> include an approved studio experience. <u>Summer education abroad is not required to include a studio experience.</u> Options are subject to change based on enrollment and availability.
Spring	X		X	X	X	
Summer (after 4 th yr.)		X	X		X	

Our students’ design and planning studies are enriched by frequent interaction with the world outside Seaton/Regnier Hall. Many participate in an education abroad experience and complete an internship. Other students choose to study urban issues at the Kansas City Design Center. All Interior Architecture students, after finishing their third-year, are required to choose two of the following (one must be semester-long experience in the spring of 4th year):

- APDesign Italian Studies Program or Education Abroad,
- Internship
- Kansas City Design Center (KCDC)

Please refer to your curriculum guide and academic advisor as you consider your future off-campus academic plans and what is required by your particular discipline.

Education Abroad

THE COLLEGE of
ARCHITECTURE, PLANNING & DESIGN // K-STATE

Off-Campus Options Meeting, April 2025

Information Subject to Change

Why Education Abroad?

- **Academic challenge**—experience a range of topics, assignment types, and instruction styles as you engage in various coursework.
- **Professional growth**—visit notable locations, experience historic and modern design/planning precedents. An education abroad experience can be a desirable credential to future employers.
- **Personal enrichment**—develop independence, a greater sense of self, and increased awareness and appreciation for other cultures.
- **Global perspective**—broaden awareness and multicultural competency by living in another country.
- Have a once-in-a-lifetime experience as a University student.

THE COLLEGE of
ARCHITECTURE, PLANNING & DESIGN // K-STATE

Potential Challenges When Studying Abroad

- **The language of instruction may not be English**, but full proficiency of the local language is not necessary.
- **The academic calendar**, including exact semester start and end dates, may differ from K-State.
- **Minimal interaction with professors** outside of class. University culture may be hierarchical and more formal than at K-State.
- **Feelings of homesickness** and **culture shock are common**. The APDesign Student & Academic Services Office and Education Abroad Office have resources to help support you while abroad.

Note: K-State and APDesign have excellent relationships with our partner institutions, but we do not influence their policies or procedures. If you elect to study at a foreign university, you must be prepared to accept and manage potential challenges. K-State Education Abroad can help support you.

ARCHITECTURE, PLANNING & DESIGN // K-STATE

APDesign Italian Studies Program

Orvieto, Italy

- Orvieto is located about one hour north of Rome in the Umbria region of Italy.
- It has a rich history, from its Etruscan underground caves to its Romanesque cathedrals.
- It offers important archaeological, architectural, and urban sites to visit and appreciate.
- The city is considered a living classroom where students are immersed in a culturally stimulating environment surrounded by piazzas, palaces, churches, and cobbled lanes.
- Orvieto has a friendly, calm, and welcoming atmosphere.

APDesign Italian Studies Program

Orvieto, Italy

- Students live in fully furnished apartments located in the historic part of the city.
- Apartments are arranged by an Italian agency and accommodate two to six students.
- Students shop for their own groceries and cook their own meals. An introduction to the local market and a cooking class with a local chef are part of the first week's orientation.

THE COLLEGE of
ARCHITECTURE, PLANNING & DESIGN // K-STATE

APDesign Italian Studies Program

Orvieto, Italy

APDesign Italian Studies Program

Orvieto, Italy

- The program includes multiple one-day field trips (typically to Rome, Siena, Florence, Assisi, Villa Lante) and several extended, two to six-day field trips (typically to Venezia, Vicenza, and Verona in the north and to Pompeii, Sorrento, and the Amalfi Coast in the south).
- Field trips are led by K-State faculty, the Italian professors, and/or professional guides.
- The field trips provide students with opportunities to experience many aspects of Italian culture, art, urban planning, landscape architecture, architecture, interior architecture, and industrial design.

THE COLLEGE of
ARCHITECTURE, PLANNING & DESIGN // K-STATE

APDesign Italian Studies Program

survey results

selected questions

What did you learn from the tasks/projects?

The question was asked to identify where students felt their largest area of growth was. This could be compared to their thoughts on how their academic program prepared them.

technical skills

- Topics included improved **CAD** skills and learning **new software**.
- *To be expected when adhering to professional standards and application.*

professional skills

- Topics included **Communication** and **Collaboration**.
- *Two of top three topics*
 - *Poses the question, "Where do we learn to collaborate and communicate professionally?"*

productivity

Topics include **time management** and **efficiency**.

Students seemed to learn to value their time, the time allotted for tasks, and the pace of the industry.

project delivery

Topic included **project documentation, specifications, construction administration, and client management**.

To be expected as many of these topics are still conceptual for students at this point in their journey.

design

Topics included **process, finish selection, prototyping, and fabrication**.

To be expected as students are exposed to more realistic constraints of design.

survey results

selected questions

What were the main difficulties that you have encountered during the internship and how you overcome?

The question was asked to identify where students experienced challenges and what strategies they employed to overcome them.

challenges

- **skill development** (software + professional literacy)
- **career readiness** (job acquisition + self-advocacy)
- **workplace dynamics** (communication, collaboration, lifestyle)
- **confidence** (self-efficacy + self-worth)
- **productivity** (time-management + efficiency)
- **social barriers** (socializing + bias/insensitivity)

resilience strategies

- **ownership of development** (personal + professional)
- **iterative process of learning** (practice + active learning)
- **adaptability** (acclimation + perspective shift)
- **use of support systems** (mentors + networking)
- **emotional + cognitive regulation** (self-care, acceptance, vulnerability)
- **no strategy identified**

survey results

selected questions

What could your program have done better to assist you prior to your internship to help you overcome the challenges?

The question was asked to identify where students felt improvement could be made.

preparedness + confidence

- Students **felt prepared** and **confident** in their ability to be successful in the industry.

technical knowledge + skills

Topics included **software, materials, building science,** and **project delivery.**

career development

Topics include **job acquisition** and **networking**

professional communication

Topics included **communication** and **collaboration.**

personal agency

Topics included **self advocacy, lifestyle adjustments,** and **academic choice.**

When doing a scaled comparison of what students identified as their learning on internship to what adjustments their programs should make, a gap in the perception of the internship appears. The areas of learning versus areas desired to learn raise the question:

What is the student perception of the intent of an internship?
