Required Off-Campus Study Options

2026 - 2027

Landscape Architecture Students						
Semester	APD Italian Studies Program	K-State in Italy Summer *not studio based	Education Abroad	KCDC	INTERNSHIP	Important Notes for LA Students
Summer After SIXTH SEMESTER		X			X	All non-baccalaureate LA students are required to complete an internship, which can occur during the spring of 4th year or summer after 3rd or 4th year. If students complete an internship in the spring and choose to extend employment into the summer, they only need to complete an internship application for spring.
EIGHTH SEMESTER. (4 th yr. Spring)	X		X	X	X	
Summer After EIGHTH SEMESTER		X			X	

Our students' design and planning studies are enriched by frequent interaction with the world outside Seaton/Regnier Hall. Many participate in an education abroad experience or complete an internship. Other students choose to study urban issues at the Kansas City Design Center. Please refer to your curriculum guide and academic advisor as you consider your plans.

All non-baccalaureate Landscape Architecture students are required to have an off-campus experience, which should occur during the spring semester of their 4th year (eighth semester) Options include: **APDesign Italian Studies Program; Education Abroad; KCDC (Kansas City Design Center); or Internship**

More information can be found on the APDesign website, under 'Student Success' > 'Applied Learning and Off-Campus Study Experiences'

Off-Campus Options Meeting, April 2025

Information Subject to Change

Why Education Abroad?

- **Academic challenge**—experience a range of topics, assignment types, and instruction styles as you engage in various coursework.
- **Professional growth**—visit notable locations, experience historic and modern design/planning precedents. An education abroad experience can be a desirable credential to future employers.
- **Personal enrichment**—develop independence, a greater sense of self, and increased awareness and appreciation for other cultures.
- **Global perspective**—broaden awareness and multicultural competency by living in another country.
- Have a once-in-a-lifetime experience as a University student.

THE COLLEGE of
ARCHITECTURE, PLANNING & DESIGN // K-STATE

Potential Challenges When Studying Abroad

- **The language of instruction may not be English**, but full proficiency of the local language is not necessary.
- **The academic calendar**, including exact semester start and end dates, may differ from K-State.
- **Minimal interaction with professors** outside of class. University culture may be hierarchical and more formal than at K-State.
- **Feelings of homesickness** and **culture shock are common**. The APDesign Student & Academic Services Office and Education Abroad Office have resources to help support you while abroad.

Note: K-State and APDesign have excellent relationships with our partner institutions, but we do not influence their policies or procedures. If you elect to study at a foreign university, you must be prepared to accept and manage potential challenges. K-State Education Abroad can help support you.

APDesign Italian Studies Program

Orvieto, Italy

- Orvieto is located about one hour north of Rome in the Umbria region of Italy.
- It has a rich history, from its Etruscan underground caves to its Romanesque cathedrals.
- It offers important archaeological, architectural, and urban sites to visit and appreciate.
- The city is considered a living classroom where students are immersed in a culturally stimulating environment surrounded by piazzas, palaces, churches, and cobbled lanes.
- Orvieto has a friendly, calm, and welcoming atmosphere.

THE COLLEGE of
ARCHITECTURE, PLANNING & DESIGN // K-STATE

APDesign Italian Studies Program

Orvieto, Italy

- Students live in fully furnished apartments located in the historic part of the city.
- Apartments are arranged by an Italian agency and accommodate two to six students.
- Students shop for their own groceries and cook their own meals. An introduction to the local market and a cooking class with a local chef are part of the first week's orientation.

APDesign Italian Studies Program

Orvieto, Italy

APDesign Italian Studies Program

Orvieto, Italy

- The program includes multiple one-day field trips (typically to Rome, Siena, Florence, Assisi, Villa Lante) and several extended, two to six-day field trips (typically to Venezia, Vicenza, and Verona in the north and to Pompeii, Sorrento, and the Amalfi Coast in the south).
- Field trips are led by K-State faculty, the Italian professors, and/or professional guides.
- The field trips provide students with opportunities to experience many aspects of Italian culture, art, urban planning, landscape architecture, architecture, interior architecture, and industrial design.

Internship

THE COLLEGE of
ARCHITECTURE, PLANNING & DESIGN // K-STATE

Internship for RCP & RECD Students

Prozess by Julian Kücklich is made available under the [Creative Commons CC0 1.0 Universal Public Domain Dedication](#).

All NB RCP and **RECD** students have the **option** to complete an internship. This will either be during 6th semester OR, if you study abroad or do KCDC that semester, your internship should occur during the summer.

Internships vary with a wide range of professional options. All internships must be approved by the Department Head prior to starting in order to receive academic credit.

Required Form

Internship Agreement

between Internship Sponsor,
Department, and Student Intern

Purpose: The purpose of the LARCP internship program is to offer students the opportunity to broaden their educational experiences by participating in a professional work environment. The internship is an opportunity to apply the knowledge and skills gained in the university to a professional setting while also identifying the aspects of education that warrant further exploration in the final year of study.

Academic Expectations: Landscape Architecture (MLA) students in the non-baccalaureate track are required to seek and participate in a professional internship for academic credit. The experience may be:

- 8 to 10-week summer internship
- a semester-long 16-week internship
- an extended spring and summer internship

Regional and Community Planning (MRCP) students in the non-baccalaureate track are required to complete a semester-long off-campus experience for academic credit. The experience may be an internship or study abroad.

Real Estate and Community Development (BS RECD) students have an optional semester-long off-campus experience for academic credit. The experience may be an internship or study abroad.

In addition, students in our post-baccalaureate graduate programs (MLA, MRPC, & MSCD) may participate in internships for academic credit.

Responsibilities:

Internship Sponsor: Internship Sponsors (employers) will provide full time employment compensated at a fair and appropriate wage. The Sponsor will be diligent in assigning work responsibilities to the Intern that will broaden his/her knowledge base, challenge his/her capabilities, and permit him/her to participate fully as a contributing member of a project team. It is expected that the Student Intern will participate in planning, programming, and/or design discussions and decisions, attend presentations, meet clients/stakeholders, and be given every opportunity to contribute to the success of a project in accordance with his/her capabilities. It is of particular interest that the Intern understands the organization of the office, how project decisions are made, management/administration processes, and office research methods.

The Internship Sponsor is responsible for providing the Intern direction and work reviews on a regular basis by an assigned office mentor. Employers will provide oversight by a licensed, certified, or qualified individual in their profession. Upon completion of the internship, the Sponsor will be asked to write a brief summation of the intern's strengths and weaknesses. The information provided will be shared only with faculty and used to direct our educational efforts to improve our instruction.

Department: Credit hours will be assigned to the student for courses related to the internship experience as outlined in the curricula. The Intern has course responsibilities and assignments which will be submitted for faculty review during the internship and upon his/her return to the university. The work will be evaluated by the LARCP office and made available to the faculty. Grades will be given for the work products required of the student intern and will not reflect office performance.

Student Intern: Students are required to secure an internship meeting their academic and professional goals. Students must submit the internship request first to the Department Head and then upload this agreement form with sponsor and student signatures to Canvas site provided by the LARCP office prior to beginning employment.

The Intern is responsible for participating and executing, to the best of his/her abilities, work assigned by the Internship Sponsor. Interns will prepare the following academic products:

- Bi-monthly reports summarizing experience, reviewed by the Internship Supervisor
- Reflection paper at the end of the internship
- Poster presentation as specified by the LARCP office
- Oral and visual presentation as specified by the LARCP office
