STUDY ABROAD

Jessica Canfield + Amanda Mack
Why Education Abroad?

- **Academic challenge**—experience a range of topics, assignment types, and instruction styles as you engage in various coursework.

- **Professional growth**—visit notable locations and experience historic and modern design and planning precedents. An education abroad experience can be a desirable credential to future employers.

- **Personal enrichment**—develop independence, a greater sense of self, and increased awareness and appreciation for other cultures.

- **Global perspective**—broaden awareness and multicultural competency by living in another country.

- Have a once-in-a-lifetime experience as a University student.
Potential Challenges When Studying Abroad

- The language of instruction may not be English, but full proficiency of the local language is not necessary.
- The academic calendar, including exact semester start and end dates, may differ from K-State.
- Minimal interaction with professors outside of class. University culture may be hierarchical and more formal than at K-State.
- Homesickness and culture shock

Note: K-State and APDesign have excellent relationships with our partner institutions, but we do not influence their policies or procedures. If you elect to study at a foreign university, you must be prepared to accept and manage potential challenges.

KCDC

Who we are:
Each semester Kansas State University students participate in studio and seminar courses at KCDC to learn from K-State faculty, professionals, and community stakeholders.

The projects are interdisciplinary in focus and a variety of disciplines at APDesign are encouraged to participate.
The current studio is collaborating with Wyandotte County/Kansas City Kansas to reimagine undeveloped land around Bethany Park in a masterplan focusing on net zero affordable housing and sustainable neighborhood design.

Students are proposing new housing types that address small homes, intergenerational housing, mix uses, and shared amenities.

The studio is also collaborating with KC Habitat for Humanity on an exhibit showcasing high performance prefab construction that will be displayed at CABA and KCK’s Third Friday Arts Walk.
