The K-State 8 general education areas are covered by courses required in the Landscape Architecture curriculum. Information about K-State 8 is available on the web and in the university catalog.

All required courses taught in the Landscape Architecture and Regional and Community Planning programs that are counted toward the degree must be passed with a grade of C or better.

*A minimum of 6 general elective credits must be taken. General electives may be taken in pursuit of a minor. They may be taken any time prior to or during the Landscape Architecture program and may include K-State-approved AP, IB, CLEP and transfer credit. Students may not count more than 3 total hours of recreation credits toward graduation.

 $Graduate\ School\ admission\ is\ contingent\ upon\ completion\ of\ all\ required\ courses\ in\ the\ third\ through\ sixth\ semesters.$

**Off-campus semester: Two distinct study opportunities are offered, each requiring 14 credit hours. The study abroad and the internship options have course requirements that substitute for the 9 professional elective credit requirements. If the internship option is not selected during the seventh or eighth semester, a summer internship is required before graduation.

College of Architecture, Planning, and Design

^{***}Six credit hours of the required graduate-level professional electives must be LAR courses. Students may petition for an exception to this policy if there is a demonstrated academic benefit.
